

FRICKE FILLING SYSTEM

EFS 31

Space-saving and powerful

The EFS 31 is a compact, semi-automatic filling system designed for precise, calibratable below-bunghole filling of non-foaming liquids.

With fast cleaning, easy operation, and a space-saving design, the EFS 31 is ideal for small to medium filling batches with frequently changing products.

Advantages

- **Precise & clean:** calibratable below-bunghole filling with automatic coarse-to-fine flow switching - no dripping
- **Easy & fast:** intuitive one-person operation, short changeover times, and automatic weight adjustment
- **Compact:** minimal space requirement, ready for use with plug-and-play connections

Products:	chemical liquids, oils
Containers:	canisters, drums
Below-bunghole filling:	for non-foaming liquids - filling below the bung opening
Weight ranges:	0.5 - 30 kg, 1 - 60 kg, 2 - 150 kg, 5 - 300 kg

Options:	cap screw device, conveyors technology
	explosion protection in acc. with ATEX Directive 2014/34/EU
	Cleaning-In-Place (CIP) system, emission extraction system
	further details available on request
