

FRICKE FILLING SYSTEM

EFS 41

Space-saving and powerful

The EFS 41 is a compact, semi-automatic filling system designed for precise, calibratable above-level filling of non-foaming liquids. The moving valve positioned just above the fill level ensures clean and controlled filling.

With its compact design, short changeover times, and intuitive one-person operation, the EFS 41 is ideal for small to medium filling batches with frequently changing products.

Products:	paints, coatings, dispersions, adhesives, bitumen
Containers:	cans, pails, drums
Above-level filling:	for non-foaming liquids - filling above the level
Weight ranges:	0.5 - 30 kg, 1 - 60 kg, 2 - 150 kg, 5 - 300 kg

Advantages

- **Precise & clean:** calibratable above-level filling with a moving valve - no dripping
- **Easy & fast:** intuitive one-person operation, short changeover times, and automatic weight adjustment
- **Compact:** minimal space requirement, ready for use with plug-and-play connections

Options:	conveyors technology, lid closer
	explosion protection in acc. with ATEX Directive 2014/34/EU
