

# FRICKE FILLING SYSTEM

## EFS 51

### Space-saving and powerful

The EFS 51 is a semi-automatic filling system equipped with two valves for both above- or below-level filling. It enables precise, calibratable filling of foaming, non-foaming, and explosive liquids.

With its easy operation, quick valve cleaning, and minimal space requirements, the EFS 51 is ideal for small to medium-sized filling batches with frequent product changes.

**Products:** paints, coatings, dispersions, adhesives, bitumen, cleaning agents and solvents, chemical liquids, mineral oils, glazes

**Containers:** cans, pails, canisters, drums

**Above- / below-level filling:** for foaming, non-foaming, and explosive liquids - filling above and below the level

### Advantages

- **Precise & flexible:** calibratable above- or below-level filling for different product types
- **Easy & fast:** intuitive one-person operation, short changeover times, and automatic weight adjustment
- **Compact:** minimal space requirements, ready for use with plug-and-play connections

**Weight ranges:** 0.5 - 30 kg, 1 - 60 kg, 2 - 150 kg, 5 - 300 kg

**Options:** cap screw device, conveyors technology, lid closer

explosion protection in acc. with ATEX Directive 2014/34/EU
