

# FRICKE FILLING SYSTEM

## EFS 61

### Space-saving and powerful

The EFS 61 is a compact, semi-automatic filling system designed for precise, calibratable above-level filling of non-foaming liquids.

An integrated buffer tank with bottom-discharge valve enables consistent, efficient product infeed by gravity. Thanks to fast cleaning, short changeover times, and intuitive operation, the EFS 61 is ideal for small to medium filling batches with frequently changing products.

<b>Products:</b>	paints, coatings, dispersions, adhesives, bitumen
<b>Containers:</b>	cans, pails, drums
<b>Above-level filling:</b>	for non-foaming liquids
<b>Weight ranges:</b>	0.5 - 30 kg, 1 - 60 kg, 2 - 150 kg, 5 - 300 kg

### Advantages

- **Precise & flexible:** calibratable above-level filling with automatic coarse-to-fine flow switching - no dripping
- **Easy & fast:** intuitive one-person operation, short changeover times, and automatic weight adjustment
- **Compact:** minimal space requirements, ready for use with plug-and-play connections

<b>Options:</b>	conveyors technology, lid closer
	explosion protection in acc. with ATEX Directive 2014/34/EU
